DETAILED ACTION

Allowable Subject Matter

1. **Claims 2-4, 10, 12, 13, 16, 17, 21-24, 26, 27, 31-33, 35, 36, 39, 40, 42-46, 48, 49, 52, and 53** (now renumbered as *claims 1-30*) are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: None of the references either singularly or in combination teach or fairly suggest a system for driving a flat panel display comprising a register, a latch, logic circuits, a plurality of change up switch elements, a plurality of change down switch elements, and an oscillator circuit having a first sinusoidal output connected to each change up switch element first terminal, and a second sinusoidal output connected to each change down switch element first terminal, wherein the oscillator circuit is configured such that signals at the first and second sinusoidal outputs are about 180 degrees out of phase with each other. While Yamaguchi et al. (U.S. Patent No. 5,307,084) in view of Tanaka (U.S. Patent No. 5,438,290) teaches the system for driving a flat panel display comprising a register, a latch, logic circuits, a plurality of change up switch elements, and a plurality of change down switch elements as recited in the claims, there fails to be any disclosure of the oscillator circuit being composed as claimed in **claims 10 and 23**. Further none of the other cited reference makes up for the deficiencies of the teachings of Yamaguchi et al. and Tanaka. With reference to **claims 35 and 48**, none of the references teach or fairly suggest that the oscillator

circuit provides a first voltage waveform corresponding to the change up driver and a second voltage waveform corresponding to the change down driver.

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alecia D. Nelson whose telephone number is 571-272-7771. The examiner can normally be reached on Monday-Friday 9:30-6:00.
